

DISCOVER THE WORLD OF PANTERRA

Magdalena Bay Eco Camp

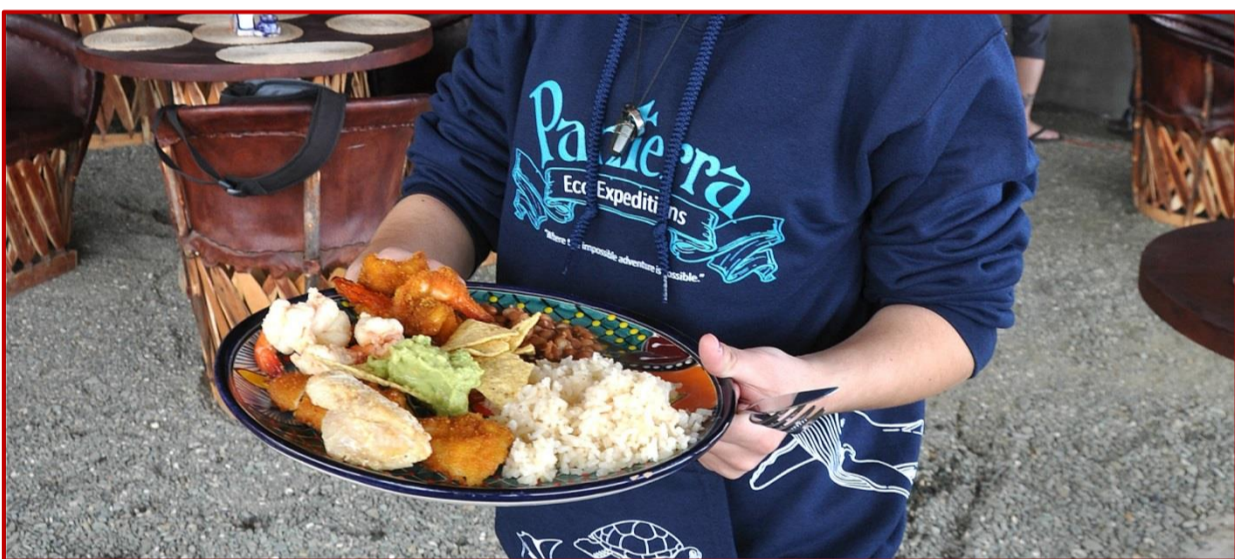

The camp has been designed with minimal impact on the environment but keeps in mind the need for creature comforts. There is a main tent that the group will meet for meals, drinks, and social time.

The camp accommodations are rustic and simple in design. It accommodates 16 guests in 8 tents with double occupancy of 2 single beds on raised cots. Bedding, linens and blankets are supplied.

Composting toilets and overhead showers (solar showers) ensure that you'll feel appropriately Baja without harm to the environment.

The cooks create fresh local dishes which includes seafood from the bay, and fresh meats, fruits and vegetables from the local farmers.

The pangas (boats) used for whale encounters are 28' with a max. capacity of 6 passengers. The pangas are equipped with all the required safety equipment.

At night, when the winds are calm, you can hear the yipping coyotes and the blows of the whales!
